

We are pleased to announce

## The Cornerstone Series

In Mayonic Science and Technology

An in-depth study of the secrets behind

**Vastu Science,**

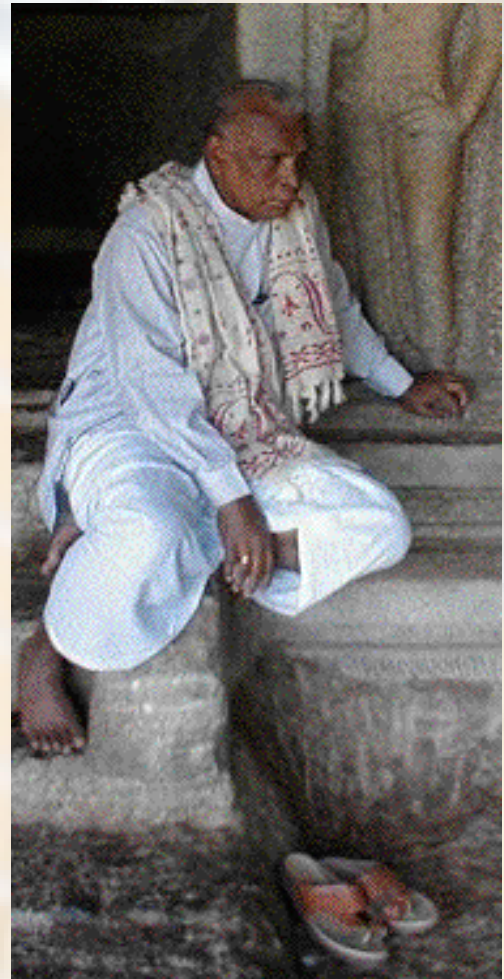

**Building Architecture of Sthapatya Veda,  
Traditional Indian and Sacred World Architecture**

**July 20 – August 25, 2013**

**SIVA™ - Society of International Vaastu Architecture  
AUM Science and Technology, and Vaastu Vedic Research  
Foundation, Chennai, India**

### Here's What You Will Learn

- The ancient mysteries governing the science of architecture (Sthapatya Veda and Vaastu Shastras) used to build King Solomon's temple, the Great Pyramids, the Mayan and Aztec temples, Machu Picchu, the great and potent temples of India, and thousands of ancient and modern houses around the world - all vibrant forms which bring inner peace and spiritual bliss to visitors and inhabitants.
- The authentic ancient teachings of the world's most eminent Vastu/Vaastu Architect and sculptor passed down for thousands of years through his lineage.
- Experience with working on an authentic Vaastu structure.
- The mechanics of creation from unmanifest (Vastu) to manifest (Vaastu) - the formation from Absolute Space and Absolute Time, OM light, OM sound, and the five elements - space, air, fire, water, and earth from their subtle to their gross states.
- The application of the mechanics of creation (laws of nature) to land/site selection, soil assessment, proper orientation of buildings, Ayadi calculation (specific units of measure used in Vaastu), building design and construction principles (including positioning of buildings on land, the secrets of the correct measure used in a properly built Vaastu building, positioning of doors, windows, walls, etc.).
- The scientific significance and calculation of the open space in the center of the building (Brahmasthan) and the building.
- The positive and negative effects of structures on the health, well-being, and bliss of the dweller.
- The application of modern physics to the mechanics of Vastureva Vaastu (energy transforming into matter or Consciousness manifesting itself as the material world).
- And much more!

Shilpi Guru

Dr. V. Ganapati Sthapati, Vaastu Vyasa

Summer 2013  
Resident Scholars Program

**Course Schedule**

**Cornerstone Series**

**July 20      Mayonic Science & Technology 101      \$253**

**Introduction to Vaastu Shastras and Pranava Veda**

This course is an exploration of the fundamental mysteries - theoretical and scientific principles - that form the foundation of Vaastu Shastras, Building Architecture of Sthapatya Veda, and Mayonic Science and Technology. This course includes an introduction to the concept of Sacred Architecture, Absolute Space, Time, OM Light, OM Sound and the formation of the five elements. It also reveals the knowledge of Vastureva Vaastu – energy transforming itself into matter. While it is an introductory course, the concepts presented are advanced and profound. Understanding this material forms the basis of understanding the applied aspects of this science and technology. Textbook included.

**July 21 - 26      Mayonic Science and Technology 201      \$1157**

**Technological Principles of MS&T, Sthapatya Veda, and Vaastu Science and Technology**

This remarkable Cornerstone Course provides a clear definition of what Vaastu Science and Mayonic Science and Technology is and isn't. The innovative and yet ancient fundamentals of Vaastu Technology are presented. These include the significance of Vaastu Purusha Mandala, measuring systems, site evaluation, design principles, and other principles specific to building architecture of Sthapatya Veda and Mayonic Science and Technology and much more. This is the "nuts and bolts" of applying principles of Vastureva Vaastu to modern building. This and 101 are a must for anyone wishing to build a Vaastu/Sthapatya Veda house for their self. Book fee \$125.

**July 25      Mayonic Science and Technology 102      \$253**

**Basic Principles of Drafting and Architectural Design**

This course provides a fundamental understanding of the skills needed to create floor plans and elevations on a rudimentary level. This or previous training is required for advanced courses.

**July 27      Mayonic Science and Technology 202      \$253**

**Studies in Home assessment**

In this course you will learn procedures for applying principles of Mayonic Science and Technology and Vaastu technology for home and small business rectification to enhance the life giving qualities of existing structures.

"...If a part of free space is isolated and confined into a four walled structure called a building, it becomes a living organism and the space enclosed will start vibrating in a particular order. If such a building is designed to vibrate in the same numerical order as that of the indweller, the resultant phenomenon is that he will experience harmony or perfect union with the Universal Self..."

Dr. V. Ganapati Sthapati

### Practicum Series

This sequence is a vital part of the AUM S&T certification program. Practicums provide you with the opportunity to apply the extensive building codes of Vaastu Shastra under supervised conditions. It is often the student's favorite experience.

July 29 - August 3 Mayonic Science and Technology

301

\$1259

### Practicum 1: Applied Mayonic Science and Technology

A course of study where the elements of MS&T /Vaastu Technology are applied to Vaastu design. Practical experience includes accomplishing a drawing with floor plan and elevation and construction of small actual Vaastu structure using the 8x8 grid to emulate the microabode in structural form. This is a hands-on opportunity to execute MS&T principles under the guidance of qualified instructors and teaching assistants. You will be left with an actual vibrant structure that will add well - being to your life if set up properly in your home. Materials fee \$75

August 5 Mayonic Science and Technology 103

\$253

### Construction Fundamentals

This course provides an exploration of language, tools and tool use, safety, materials, field techniques for precision measurement, practical application of tools and materials for building Vaastu in the Americas.

*This science deals with the eternal process of subtle energy manifesting into material space or material form. In short, it is the manifestation of energy into matter or material form.* Dr. V. Ganapati Sthapati

August 6 - 25 Mayonic Science and Technology 302

\$1485

### Practicum 2: Applied Mayonic Science and Technology

A splendid fun-filled twelve-day course of study where elements of MS&T are applied to the construction of a Vaastu building such as a shed, temple cottage, gazebo, or work on an actual house. Location: In the beautiful southern mountains of AZ, 1 hour south of Tucson, AZ) (\$75 materials fee)

### Tuition and Scholarships

We are happy to announce that during the upcoming summer the course fee is being dropped to approximately \$253 per credit unit to encourage enrollment (normally \$307 US). Some courses are being offered for less than that per credit amount. Tuition is sent directly to a foundation that supports much needed research and development in this field.

### Instructors

Instruction is given by the eminent scholar and Vaastu consultant, Dr. Jessie J. Mercay, as well as Certified Consultants, Architects and advance students.

Dr. Jessie Mercay has studied aspects of Vedic literature for forty-five years and Vaastu Shastras for more than 15 years. She has been a student of Dr. V. Ganapati Sthapati for ten years making pilgrimages to study with him ten times. She has written numerous textbooks and articles in this field and has written commentaries on various related concepts in the Vedas. She has built a number of Vaastu houses, Temple Cottages, and small structures over the past eight years. Dr. Mercay has traveled extensively in India studying Vaastu architecture and art. She holds several Doctorates including a PhD in Mayonic Science and Technology and has taught at the college level for a number of years at various Universities.

### Location

These workshops will be held in the beautiful Patagonia, AZ, 1.5 hrs south of Tucson, AZ. (AUM S&T is chartered in India, and located in Alamos, Mx).

### Application

- Email [aumcourses@aumscience.com](mailto:aumcourses@aumscience.com) for application and information on lodging, transportation, etc.
- Intention to apply due by May 15 (email [aumcourses@aumscience.com](mailto:aumcourses@aumscience.com))
- Application deadline Jun 1, 2013. **Space for this course is limited.** Applicants after June will be accepted if space is available. Course fee does not cover room, board, or transportation.
- All courses offered are required for certification program. Individuals may enroll in basic classes without taking the full program but preference is given to students intending to enroll in the entire program. (see [www.aumscience.com](http://www.aumscience.com) for the full program outline.)
